It is our hope that this handbook will not only provide information about our expectations for students but will also serve as a means of informing you of all the programs the Menifee County School District and our collaborative community agencies provide to our students and families. We want the handbook to be useful to you and hope you will refer to it throughout the year. If you have ideas for other issues we should address in our handbook, please don't hesitate to contact us with your input. This is **your** handbook!

After this handbook is distributed for the school year, changes to school board policy, including those affecting provisions of this handbook and code of conduct, may be necessary due to new or revised statutes and regulations and case law. We will keep the handbook current on the Menifee County School District web site which can be accessed at: www.menifee.kyschools.us. This handbook is not all inclusive of policies approved by the Menifee County Board of Education and is not meant to be a contract between the Menifee County School District or

In addition, all school board policies and procedures are accessible on-line by any parent, community member, administrator or employee who has access to the internet at the same web address as above under School Policies at the left.

PURPOSE OF THE CODE OF CONDUCT

The Menifee County Board of Education believes the purpose of the Code of Conduct is to maintain a wholesome learning environment in the schools. The Board believes each individual student behavior incident should be considered and extenuating circumstances should always be reviewed for the welfare of the student. The Code is intended to act as a guide to ensure students are treated fairly, but be flexible enough to address individual student behavior incidents. This flexibility will enhance the learning environment.

PHILOSOPHY

To ensure that an environment conducive to effective learning is maintained in the Menifee County School system, it is necessary to establish a consistent and effective discipline code.

The Menifee County Board of Education recognizes its responsibility to prepare students for their role as adults in a democratic society. To accomplish this, there must be mutual respect and trust toward each other by students, parents, and school staff. The Code of Conduct is a means for accomplishing this objective.

Effective learning is not possible without an environment that is safe, respectful, and responsible. Establishing behavior expectations that are taught and reinforced by all school staff members creates such an environment.

The Menifee County Board of Education is entrusted with the responsibility of meeting the mandate to educate all children until graduation from high school or age twenty-one (21). The Board is committed to establishing an environment that is most conducive to fulfilling that obligation.

APPLICATION OF THE STUDENT CODE OF CONDUCT

The Superintendent shall be responsible for the overall implementation and supervision of the Board's Uniform Code of Student Conduct. The Code of Conduct, as adopted, will be supported by school expectations, rules and regulations, and be primarily administered through the authority of principals of the Menifee County Schools with the support of the instructional staff of the schools. The teacher, principal, Superintendent, or designee, as applicable, shall apply the Code to each student without partiality or discrimination at the following times:

- 1) During the normal school day.
- 2) At any extra-curricular/co-curricular activity and at all times during school-sponsored trips.
- 3) During transportation provided by the school board to and from school. (Pursuant to KRS 161.180 and 158.150, this guideline may apply to students while in route to and from school, school bus stops, etc.)
- 4) On buildings and grounds owned or operated by the Menifee County Board of Education.

LOCAL DISCIPLINE CODE COMMITTEE

A team is established to draft the Code of Conduct Handbook, while the District appreciates and acknowledges the work of these individuals in creating and drafting this Handbook, the Local Discipline Code Committee was a drafting team only, and has no authority to offer explanation or interpretation as to the provisions herein. Ultimate authority lies with the principal, school administrator, or superintendent that is administering the disciplinary measures and the Code. This Handbook and all District-wide policies are adopted and approved by the Board of Education.

ANNUAL ORIENTATION

At the beginning of each school year, all students and teachers will be made aware of the guidelines on discipline. All students will receive a copy of current guidelines upon initial enrollment in Menifee County Schools and at the beginning of each school year thereafter. In order to help inform parents and the community, the Code will also be published on the District website at www.menifee.kyschools.us.

ABOUT THE CODE OF CONDUCT ANNUAL REVIEW

Each year Menifee County Schools reviews the Code of Conduct. A committee of students, school representatives, parents, and administrators meet to consider recommendations and to make needed revisions. Each local school safety plan is reviewed in like manner. The revisions will be then reviewed by legal counsel, forwarded to the Superintendent and School Board for approval.

Questions concerning the Code of Conduct should be directed to:

PHILOSOPHY OF RIGHTS AND RESPONSIBILITIES

The protection and safeguards of the United States Constitution and, more particularly, of the Bill of Rights apply to all students. Responsibility is inherent in all rights. No student or other person involved in the public schools can realize his rights unless (s)he also exercises the self-discipline and care to afford all others the same rights and does not allow his/her own actions to infringe upon the rights of others. In a social environment such as public schools, all participants (i.e. students, parents/guardians, teachers, administrators, and others in the educational process) have the right and responsibility to know the basic standards of conduct and behavior which are expected. The school environment is a community of individuals who live and interact based upon commonly shared rules, rights, responsibilities, expectations, and common sense.

Students are expected to arrive at school each day dressed in an appropriate manner. The administration of the school reserves the right to determine what is deemed appropriate and/or inappropriate dress for school. School dress codes vary from school to school as school policies focus on dress and appearance that is age appropriate for the students of the school. Parents and students should consult the policy for Dress and Appearance at the school which the student attends. The wearing of any item that materially or significantly disrupts the educational process or threatens the health or safety of other pupils or staff members is prohibited.

Threatening or violent behavior shall include, but not be limited to:

- A. Verbal or written statements/gestures by students indicating intent to harm themselves, others or property.
- B. Physical attack by students so as to intentionally inflict harm to themselves, others or property.

In many of these situations, restraint and seclusion protocols dictate that the other students in the classroom will be removed to a safe location away from the threatening or violent student(s).

Removal of students from a bus shall be made in compliance with 702 KAR 5:080. Students removed from the bus are expected to attend school on time every day, regardless of their means of transportation. Students who are suspended from riding the bus and who do not attend school during the time they are suspended will be counted as absent, unexcused.

When a situation calls for the seclusion of a student, the teacher or school staff member supervising the student shall complete and submit a form to document the removal and the causes as soon as practical. The principal shall review the removal as soon as possible to determine if further disciplinary action is warranted or if the student is to be returned to the classroom.

PENALTY

Violation of this policy shall constitute reason for disciplinary action including suspension or expulsion from school and suspension or dismissal from athletic teams/extracurricular activity and/or other school sponsored activities. Students with drug violations may be referred to the Board for an expulsion hearing. However, as an alternative to expulsion, parents may be offered the opportunity to place the student in the District's alternative education program, provided they and the student agree in writing that the student will undergo random drug testing while assigned to the program.

REPORTING

Employees of the District shall promptly make a report to the local police department, sheriff, or Kentucky State Police, by telephone or otherwise, if they know or have reasonable cause to believe that conduct has occurred which constitutes the use, possession, or sale of controlled substances on the school premises or within one thousand (1,000) feet of school premises, on a school bus, or at a school sponsored or sanctioned event. In addition, when they have reasonable belief that a violation has taken place, Principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a controlled substance on school property in violation of the law.

PREVENTION PROGRAM

The Superintendent shall establish a comprehensive and on-going drug-free/alcohol-free prevention program for all students which shall include notice to students and parents of the following:

These seminars shall be **accessible to all** County middle and high school students, but **mandatory** for all athletic and extracurricular team members, coaches, and sponsors; and for students who will be driving or parking on school property.

DRUG TESTING PROGRAM

This policy applies to all students who choose to participate in any extracurricular activity, including athletes at the varsity and/or sub-varsity levels, and students who drive or park on school property.

At the start of the school year, all students who intend to participate in any of the above-named activities and their parents/guardians must read this policy and acknowledge, in writing, that they have read the policy, understand the policy and agree to be bound by the terms and conditions contained in the policy and procedures.

Random drug testing conducted by an independent testing laboratory for all extracurricular activity participants, athletes, and student drivers may be conducted during the school year.

All student participants and their parents/guardians must sign the “Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing” form before the student shall be permitted to participate in any extracurricular activity, athletics or be authorized to drive or park on school property.

Testing shall be accomplished by the analysis of urine specimen obtained from the student participants. Collection and testing procedures shall be established, maintained, and administered under the auspices of the Drug Testing Coordinator through an independent drug testing laboratory to ensure:

1. Randomness of the selection procedures;
2. Proper student identification;
3. Identification of each specimen with appropriate student participant;
4. Maintenance of the unadulterated integrity of the specimen;
5. Integrity of the collection and testing process; and
6. Protection of the confidentiality of the test results.

Notice to Participants

Prior to participation in any team or extracurricular activity or issuing parking permits EACH year, the District shall provide all student choosing to participate with teams or extracurricular activities and/or choosing to drive or park on school property and their parent/guardian with a written copy of this policy and the accompanying “Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing” form which must be completed prior to participation in any of the above mentioned activities.

Student Drug-Testing Procedures (Policy 09.423 AP.1)

The specific testing process shall be on file at the testing laboratory selected by the Board. Student participants’ urine specimen shall be tested for the following, which shall include, but may not be limited to:

1. Amphetamines;
2. Marijuana (THC);
3. Cocaine and its derivatives;
4. Opiates;
5. Phencyclidine (PDP);
6. Benzodiazepine;
7. Propoxyphene, and
8. Other abused, illegal, or controlled substances as determined by the Substance Abuse Prevention Committee.

Confidentiality

The Drug Testing Coordinator (DTC), appointed by the Superintendent, shall develop a process to reasonably ensure the privacy of each student participant during the taking of samples. The Drug Testing Coordinator shall also develop a process to reasonably ensure the security of samples once they are obtained. The DTC shall arrange for laboratory services that are accurate and reliable. Appropriate measures shall be taken throughout the testing process and through the handling of all test results to protect the confidentiality of the student participant. Access to drug testing results shall be strictly limited to the student participant, the parent/guardian of said student, the School Drug Counselor, and the DTC. The head coach of the athletic team, the faculty sponsor of the extracurricular activity, or principal in charge of parking SHALL NOT know the specific results of any drug test. However, that individual shall be notified of a positive result only as it is necessary to implement the sanctions for the student’s violations.

Substance Abuse Prevention Committee

A Substance Abuse Prevention Committee composed of the middle school and high school principals/assistant principals, guidance counselors, Drug Testing Coordinator, and School Drug Counselor shall have the overall responsibility for evaluating the program as needed to implement the policy fairly and efficiently and shall review and evaluate the effectiveness of the drug testing policy on an annual basis. This evaluation shall include, but not be limited to, the effectiveness of the comprehensive educational and counseling program, substance testing program, procedural safeguards, and the list of drug substances tested. An annual report shall be presented to the school Board at its next regularly scheduled meeting following the end of the school year. THE COMMITTEE SHALL NOT HAVE ACCESS TO ANY OF THE TEST RESULTS. Its purpose is limited to procedures and evaluation of this policy.

These procedures apply to all students choosing to participate in any extracurricular activity, including students/players at the middle school and high school levels, and to students who drive or park on school property.

DRUG TESTING PROCEDURES

1. Prior to trying out for or joining an extracurricular team or activity, including athletics, or prior to being authorized to drive or park on school property, the student participant or driver and his/her parent/guardian must read Policy 09.423 and must **ACKNOWLEDGE, IN WRITING, THAT THEY HAVE READ THE POLICY AND PROCEDURES, UNDERSTAND THE POLICY AND PROCEDURES, AND AGREE TO BE BOUND BY THE TERMS AND CONDITIONS CONTAINED IN THE POLICY AND PROCEDURES.** The student participant or driver and his/her parent/guardian must also sign the “Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing” form before the student will be permitted to try out for any athletic team, join an extracurricular activity at the middle- or high-school levels, or be authorized to drive or park on school property.
2. Prior to giving a urine specimen, each student participant or driver shall complete both a “Medical History Form” (which shall include disclosure of all prescription drugs currently taken) and a “Consent to Test and Chain of Custody Form.” The forms shall identify the student participant or driver only by a confidential number and shall be placed in a sealed package, which shall be forwarded to the testing laboratory with the urine specimen.
3. Testing shall be done at the following times: All student participants shall be subject to random testing at any time between the student’s selection to or membership in the extracurricular team or activity and the date of the last game of the season for the athletic team or the date of the last extracurricular meeting or activity of the school year. Student drivers shall be subject to random testing at any time of the school year or for however long they choose to drive and park on school property.
4. The collection of urine specimen for the random testing shall be conducted on the school campus.
5. The testing laboratory approved by the Board shall determine which student participants or drivers are to be tested by the random drawing of names from all student participants and drivers.
6. Collection procedures for urine specimen shall be developed, maintained, and administered by the testing laboratory in an effort to minimize any intrusion or embarrassment for each student, to ensure the proper identification of students and the student’s specimen, to minimize the likelihood of the adulteration of a urine specimen, and to maintain complete confidentiality of test results. To that end, the procedure will require:
 - a. The presence of a sponsor (coach or staff member) or the Principal/Assistant Principal immediately prior to the collection process to ensure proper student identification.
 - b. The presence of one (1) or more representatives of the testing laboratory when the specimen is taken.
 - c. The testing laboratory shall provide each student present for the collection process a receptacle for the collection of urine. The student shall be permitted absolute privacy during the collection process.
 - d. Immediately prior to entering the private bathroom facility utilized for the collection process, the student shall be required to leave all personal belongings (including jackets, purses, book bags, pocket contents, etc.) in the custody of the school representatives present for student identification.
 - e. Prior to entering the private bathroom facility utilized for the collection process, the testing laboratory shall treat water in the private bathroom facility with a coloring substance (frequently referred to by testing laboratories as “bluing the water”) to prevent a student from attempting to dilute or otherwise adulterate the urine specimen.
7. All scientific analyses of the collected specimen shall be conducted by the professional testing laboratory. Each specimen shall initially be tested by using a highly accurate immunoassay technique (EMIT). Initial positive results must be confirmed by gas chromatography/mass spectrometry (GC/MS). If the initial presumptive positive result is not confirmed by the GC/MS technique, the test shall be deemed to be negative. Only after the GC/MS confirmation shall a test result be reported as positive.
8. A portion of each urine specimen given by each student participant or driver shall be preserved by the testing laboratory for at least six (6) months.
9. Written confirmation of all test results shall be forwarded by the testing laboratory to the Drug Coordinator (DC)/Principal/Designee who shall provide the results (negative and positive) to the sponsor (coach, staff member, etc.), the student, and the parent/guardian of the student tested, if the student is under the age of 18. The testing laboratory shall not provide the test results verbally. All test results are confidential and shall be maintained in the Principal’s office under the strictest security. The laboratory shall re-test if there is a positive first test as described in Number 7 of this section. If these two (2) tests are in conflict, the results shall be deemed negative.
10. In the event that a student participant’s or driver’s urine specimen produces a positive result, the Principal and sponsor shall meet with the student participant or driver and the student’s parent/guardian, if the student is under the age of 18, to disclose and discuss the test results. At this meeting the student shall be advised of his/her procedural rights. If a

student has given consent and refuses to participate in drug screening, the refusal shall be treated as a violation and a first offense.

11. Any student participant or driver who has tested positive or the student's parents/guardians, if the student is under the age of 18, may contest the test result by informing the Principal of their wish to have a hearing with the Principal within seventy-two (72) hours of receipt of notice of the positive test result. The student and parent/guardian shall be given the opportunity to present relevant evidence to defend the charge of violation of this policy prior to implementation of sanctions. The Principal may require written documentation (such as a doctor's statement) of information that the student feels may have affected the test results.

Failure to present written documentation to support the student's defense of the case may result in the student being subject to the sanctions provided in this policy for a positive test result. Any further laboratory analysis shall be conducted with the student participant's or driver's remaining urine specimen preserved by the testing laboratory. Student's parents/guardians, if the student is under the age of 18, may request another drug-test, at their own expense. A final decision of the Principal shall come within five (5) days of receiving notice to contest the test results.

12. The final determination of the student participant's or driver's eligibility shall be made at the school level by the Principal. One (1) year after the student turns 18 years or older or one (1) year after the student's graduation, whichever is later, all records in regard to this policy concerning each student participant or driver shall be destroyed, and at no time shall these results or records be placed in the student's academic file or be voluntarily turned over to any law-enforcement agency, or used for any purpose other than those stated herein.

This policy applies to students, staff members, and visitors to the school.

WEAPONS PROHIBITED

Except where expressly and specifically permitted by Kentucky Revised Statute, the carrying, bringing, using, or possessing any weapon or dangerous instrument in any school building, on school grounds, in any school vehicle or at any school-sponsored activity is prohibited.

Violation of this policy by staff members shall constitute reason for disciplinary action, including possible termination.

Violation of this policy by students shall require that the Principal immediately make a report to the Superintendent, who shall determine if charges for expulsion from the District schools should be filed under Policy 09.435. In addition, when they have reasonable belief that a violation has taken place, principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school-sponsored function that involves student possession of a firearm in violation of the law or assault involving the use of a weapon.

Violations by visitors shall be reported to a law enforcement agency.

Exceptions:

- An exception may be made for students participating in an authorized curricular or extracurricular activity or team involving the use of firearms and to those persons listed in [KRS 527.070](#).
- Law enforcement officials, including peace officers and police as provided in [KRS 527.070](#) and [KRS 527.020](#), are authorized to bring weapons onto school property in performance of their duties.

FEDERAL REQUIREMENTS REGARDING STUDENTS

The penalty for students possessing a firearm at school or bringing a firearm or other deadly weapon, destructive device, or booby trap device to school or onto the school campus/property under jurisdiction of the District shall be expulsion for a minimum of twelve (12) months under Policy 09.435. However, the Board may modify such expulsions on a case-by-case basis. Any case-by-case modification of the one (1)-year expulsion requirement, including those made for students with disabilities to meet the requirements of IDEA and Section 504, shall be in writing and may be based upon a recommendation of the Superintendent/designee.

Any student who possesses a firearm at school or brings to school a firearm or other deadly weapon, destructive device, or booby trap device shall be referred to the criminal justice or juvenile delinquency system.

Although students are subject to disciplinary action for violating any restriction in this policy, the twelve (12) month expulsion penalty mandated by the Federal Gun-Free Schools Act does not apply to a firearm lawfully stored in a locked vehicle on school property.¹

STATE POSTING REQUIREMENTS

The Superintendent shall post the following notice in prominent locations in the schools, including, but not limited to, sports arenas, gymnasiums, stadiums, and cafeterias. The notice shall be at least six (6) inches high and fourteen (14) inches wide and shall state:

UNLAWFUL POSSESSION OF A WEAPON ON SCHOOL PROPERTY IN KENTUCKY IS A FELONY PUNISHABLE BY A MAXIMUM OF FIVE (5) YEARS IN PRISON AND A TEN THOUSAND DOLLAR (\$10,000) FINE.¹

The above criminal penalty shall not apply to those persons listed in [KRS 527.070](#) (3).

STATE REPORTING REQUIREMENTS

Employees of the District shall promptly make a report to the local police department, sheriff, or Kentucky State Police, by telephone or otherwise, if they know or have reasonable cause to believe that conduct has occurred which constitutes the carrying, possession, or use of a deadly weapon on the school premises or within one thousand (1,000) feet of school premises, on a school bus, or at a school sponsored or sanctioned event.

For state reporting purposes, a deadly weapon shall be defined as:

1. a weapon of mass destruction;
2. any weapon from which a shot, readily capable of producing death or serious physical injury, may be discharged;
3. any knife other than an ordinary pocket knife or hunting knife;*
4. billy, nightstick or club;
5. blackjack or slapjack;
6. nunchaku karate sticks;
7. shuriken or death star; or
8. artificial knuckles made from metal, plastic, or other similar hard material;
9. laser pointers or other high energy light sources.

*The Board, however, prohibits students from bringing a knife of any kind or size, including a pocket knife and/or hunting knife, onto school property, including, but not limited to, vehicles and buildings, or to school sponsored activities.

Employees who receive information from a student or other person regarding conduct required to be reported shall report the conduct in the same manner as stated above.

Violation by visitors shall be reported to a law enforcement agency. Under KRS Chapter 158, “principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school sponsored function that involves student possession of a firearm in violation of the law or assault involving the use of a weapon”. Violation of this policy by students shall further require that the principal immediately make a report to the Superintendent, who shall implement steps leading to an expulsion hearing. In addition, when they have reasonable belief that a violation has taken place, principals shall immediately report to law enforcement officials when an act has occurred on school property or at a school sponsored function that involves student possession of a firearm in violation of the law or assault involving the use of a weapon.

ENFORCEMENT

In the enforcement of this policy, principals may authorize, if they have reasonable suspicion, searches in compliance with applicable Board policies.

Parent/Principal Notification Requirement to Receiving School (KRS 610.345)

If a student has been adjudicated guilty of an offense specified in this subsection or has been expelled from school for an offense specified in this subsection, prior to a student’s admission to any school, the parent, guardian, principal, or other person or agency responsible for a student shall provide to the school a sworn statement or affirmation indicating on a form provided by the Kentucky Board of Education that the student has been adjudicated guilty or expelled from school attendance at a public or private school in this state or another state for homicide, assault, or an offense in violation of state law or school regulations relating to weapons, alcohol, or drugs. The sworn statement or affirmation shall be sent to the receiving school within five (5) working days of the time when the student requests enrollment in the new school.

Disrupting the Educational Process (Policy 09.426)

Behavior that materially or substantially disrupts the educational process, whether on school property or at school-sponsored events and activities, shall not be tolerated and shall subject the offending pupil or pupils to appropriate disciplinary action. For purposes of this section, behavior which disrupts the educational process shall include, but not be limited to:

2. Conduct which may damage public or private property, including the property of students or staff;

OTHER CLAIMS

When a complaint is received that does not appear to be covered by this policy, administrators shall review other policies that may govern the allegations, including but not limited to, 09.422 and/or 09.42811, which address harassment/discrimination allegations.

Bullying/Hazing (Policy 09.422)

In order to effectively participate in the democratic process as adults, students must learn to respect the rights of others and to interact with them in a civil manner. Therefore, students are required to speak and behave in a civil manner toward students, staff and visitors to the schools.

Actions Not Tolerated

The use of lewd, profane or vulgar language is prohibited. In addition, students shall not engage in behaviors such as hazing, bullying, menacing, taunting, intimidating, verbal or physical abuse of others, or other threatening behavior. This policy extends to any/all student language or behavior including, but not limited to, the use of electronic or online methods. Such behavior is disruptive of the educational process and interferes with the ability of other students to take advantage of the educational opportunities offered.

These provisions shall not be interpreted to prohibit civil exchange of opinions or debate protected under the state or federal constitutions where the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

Students who violate this policy shall be subject to appropriate disciplinary action.

1. That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event; or
2. That disrupts the education process.

Reports

As provided in the District Code of Acceptable Behavior and Discipline, students that believe they are victims of bullying/hazing shall be provided with a process to enable them to report such incidents to District personnel for appropriate action.

Employees are expected to take reasonable and prudent action in situations involving student welfare and safety, including following District policy requirements for intervening and reporting to the Principal or to their immediate supervisor those situations that threaten, harass, or endanger the safety of students, other staff members, or visitors to the school or District. Such instances shall include, but are not limited to, bullying or hazing of students and harassment/discrimination of staff, students or visitors by any party.

Students who believe they have been a victim of bullying or who have observed other students being bullied shall, as soon as reasonably practicable, report it.

The District Code shall specify to whom reports of alleged instances of bullying or hazing shall be made. In serious instances of peer-to-peer bullying/hazing/harassment, employees must report to the alleged victim's Principal, as directed by Board policy 09.42811. The Principal/designee shall investigate and address alleged incidents of such misbehavior.

In certain cases, employees must do the following:

1. Report bullying and hazing to appropriate law enforcement authorities as required by policy 09.2211; and
2. Investigate and complete documentation as required by policy 09.42811 covering federally protected areas.

Other Claims

When a complaint is received that does not appear to be covered by this policy, administrators shall review other policies that may govern the allegations, including but not limited to, 09.426 and/or 09.42811. Harassment/discrimination allegations shall be governed by Policy 09.42811.

Reporting Code Violations 09.438 AP.1

Students wishing to report bullying or other violation of the Code of Acceptable Behavior and Discipline may report it to a classroom teacher, who shall take appropriate action as defined by the code. The teacher shall refer the report to the Principal/designee for further action when the report involves an offense that may warrant suspension or expulsion of a student, any felony offense, or a report that may be required by law, including reports to law enforcement.

RETALIATION PROHIBITED

Employees and other students shall not retaliate against a student because s/he reports bullying or other violation of the code or assists or participates in any investigation, proceeding, or hearing regarding the violation. The Superintendent/designee shall take measures needed to protect students from such retaliation.

Harassment/Discrimination (Policy 09.42811)

DEFINITION

Harassment/Discrimination is unlawful behavior based on race, color, national origin, age, religion, sex or disability that is sufficiently severe, pervasive, or objectively offensive that it adversely affects a student's education or creates a hostile or abusive educational environment.

The provisions of this policy shall not be interpreted as applying to speech otherwise protected under the state or federal constitutions where the speech does not otherwise materially or substantially disrupt the educational process, as defined by policy 09.426, or where it does not violate provisions of policy 09.422.

PROHIBITION

Harassment/Discrimination is prohibited at all times on school property and off school grounds during school-sponsored activities. This prohibition also applies to visitors to the school who may come into contact with employees and students. (Acts of harassment/discrimination based on sex may be committed by persons of the same or the opposite sex.)

District staff shall provide for a prompt and equitable resolution of complaints concerning harassment/discrimination.

DISCIPLINARY ACTION

Students who engage in harassment/discrimination of an employee or another student on the basis of any of the areas mentioned above shall be subject to disciplinary action, including but not limited to suspension and expulsion.

GUIDELINES

Students who believe they or any other student, employee, or visitor is being or has been subjected to harassment/discrimination shall, as soon as reasonably practicable, report it. In each school building, the Principal is the

person responsible for receiving reports of harassment/discrimination at the building level. Otherwise, reports of harassment/discrimination may be made directly to the Superintendent. Additionally, if sexual discrimination or harassment is being alleged, reports may be made directly to the District Title IX Coordinator. Complaints of harassment/discrimination, whether verbal or written, shall lead to a documented investigation and a written report.

Employees who believe prohibited behavior is occurring or has occurred shall notify the victim's Principal, who shall immediately forward the information to the Superintendent.

The Superintendent shall provide for the following:

1. Investigation of allegations of harassment/discrimination to commence as soon as circumstances allow, but not later than three (3) school days of receipt of the original complaint, regardless of the manner in which the complaint is communicated to a District administrator. A written report of all findings of the investigation shall be completed within thirty (30) calendar days, unless additional time is necessary due to the matter being investigated by a law enforcement or governmental agency. The Superintendent/designee may take interim measures to protect complainants during the investigation.
2. A process to identify and implement, within five (5) school days of the submission of the written investigative report, methods to correct and prevent reoccurrence of the harassment/discrimination. If corrective action is not required, an explanation shall be included in the report.
3. A process to be developed and implemented to communicate requirements of this policy to all students, which may include, but not be limited to, the following:
 - written notice provided in publications such as handbooks, codes, and/or pamphlets; and/or
 - such other measures as determined by the Superintendent/designee.Method(s) used shall provide a summary of this policy, along with information concerning how individuals can access the District's complete policy/procedures and obtain assistance in reporting and responding to alleged incidents. Students, parents or guardians, as appropriate, will be directed to sign an acknowledgement form verifying receipt of information concerning this policy as part of the Board-approved code of acceptable behavior and discipline.
4. Age appropriate training during the first month of school to include an explanation of prohibited behavior and the necessity for prompt reporting of alleged harassment/discrimination; and
5. Development of alternate methods of filing complaints for individuals with disabilities and others who may need accommodation.

When sexual harassment is alleged, the District's Title IX Coordinator, as designated in the student handbook/code, shall be notified.

NOTIFICATIONS

Within twenty-four (24) hours of receiving a serious allegation of harassment/discrimination, District personnel shall attempt to notify parents of both student victims and students who have been accused of harassment/discrimination.

In circumstances also involving suspected child abuse, additional notification shall be required by law. (See Policy 09.227.)

In applicable cases, employees must report harassment/discrimination to appropriate law enforcement authorities in accordance with law.

PROHIBITED CONDUCT

Depending on the circumstances and facts of the situation, and within the definition of harassment/discrimination contained in this policy, examples of conduct and/or actions that could be considered a violation of this policy include, but are not limited to:

1. Any nicknames, slurs, stories, jokes, written materials or pictures that are lewd, vulgar, or profane and relate to any of the protected categories listed in the definition of harassment/discrimination contained in this policy;
2. Unwanted touching, sexual advances, requests for sexual favors, and spreading sexual rumors;
3. Instances involving sexual violence;

4. Causing a student to believe that he or she must submit to unwelcome sexual conduct in order to participate in a school program or activity or that an educational decision will be based on whether or not the student submits to unwelcome sexual conduct;
5. Implied or overt threats of physical violence or acts of aggression or assault based on any of the protected categories;
6. Seeking to involve students with disabilities in antisocial, dangerous or criminal activity where the students, because of disability, are unable to comprehend fully or consent to the activity; and

CONFIDENTIALITY

District employees involved in the investigation of complaints shall respect, as much as possible, the privacy and anonymity of both victims and persons accused of violations.

APPEAL

Upon the completion of the investigation and correction of the conditions leading to the harassment/discrimination, any party may appeal in writing any part of the findings and corrective actions to the Superintendent.

If a supervisor is an alleged party in the harassment/discrimination complaint, procedures shall also provide for addressing the complaint to a higher level of authority.

Failure by employees to report, notify, and/or initiate an investigation of alleged harassment/discrimination as required by this policy, or to take corrective action shall be cause for disciplinary action.

RETALIATION PROHIBITED

No one shall retaliate against an employee or student because s/he submits a grievance, assists or participates in an investigation, proceeding, or hearing regarding the charge of harassment/discrimination of an individual or because s/he has opposed language or conduct that violates this policy.

Upon the resolution of allegations, the Superintendent shall take steps to protect employees and students against retaliation.

FALSE COMPLAINTS

Deliberately false or malicious complaints of harassment/discrimination may result in disciplinary action taken against the complainant.

OTHER CLAIMS

When a complaint is received that does not appear to be covered by this policy, administrators shall review other policies that may govern the allegations, including but not limited to, 09.422 and/or 09.426.

Access to Electronic Media

(Acceptable Use Policy)

The Board supports reasonable access to various information formats for students, employees and the community and believes it is incumbent upon users to utilize this privilege in an appropriate and responsible manner as required by this policy and related procedures, which apply to all parties who use District technology.

SAFETY PROCEDURES AND GUIDELINES

The Superintendent shall develop and implement appropriate procedures to provide guidance for access to electronic media. Guidelines shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of networks for prohibited or illegal activities, the intentional spreading of embedded messages, or the use of other programs with the potential of damaging or destroying programs or data.

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Internet safety measures, which shall apply to all District-owned devices with Internet access or personal devices that are permitted to access the District's network, shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the Internet and World Wide Web;
- Safety and security of minors when they are using electronic mail, chat rooms, and other forms of direct electronic communications;
- Preventing unauthorized access, including "hacking" and other unlawful activities by minors online;
- Unauthorized disclosure, use and dissemination of personal information regarding minors; and
- Restricting minors' access to materials harmful to them.

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

The District shall provide reasonable public notice of, and at least one (1) public hearing or meeting to address and communicate its initial Internet safety measures.

Specific expectations for appropriate Internet use shall be reflected in the District's code of acceptable behavior and discipline including appropriate orientation for staff and students.

PERMISSION/AGREEMENT FORM

A written parental request shall be required prior to the student being granted independent access to electronic media involving District technological resources.

The required permission/agreement form, which shall specify acceptable uses, rules of on-line behavior, access privileges, and penalties for policy/procedural violations, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

EMPLOYEE USE

Employees shall not use a code, access a file, or retrieve any stored communication unless they have been given authorization to do so. (Authorization is not required each time the electronic media is accessed in performance of one's duties.) Each employee is responsible for the security of his/her own password.

Employees are encouraged to use electronic mail and other District technology resources to promote student learning and communication with the home and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

District employees and activity sponsors may set up blogs and other social networking accounts using District resources and following District guidelines to promote communications with students, parents, and the community concerning school-related activities and for the purpose of supplementing classroom instruction.

Networking, communication and other options offering instructional benefits may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities.

In order for District employees and activity sponsors to utilize a social networking site for instructional, administrative or other work-related communication purposes, they shall comply with the following:

1. They shall request prior permission from the Superintendent/designee.
2. If permission is granted, staff members will set up the site following any District guidelines developed by the Superintendent's designee.
3. Guidelines may specify whether access to the site must be given to school/District technology staff.

4. If written parental consent is not otherwise granted through AUP forms provided by the District, staff shall notify parents of the site and obtain written permission for students to become “friends” prior to the students being granted access. This permission shall be kept on file at the school as determined by the Principal.
5. Once the site has been created, the sponsoring staff member is responsible for the following:
 - a. Monitoring and managing the site to promote safe and acceptable use; and
 - b. Observing confidentiality restrictions concerning release of student information under state and federal law.

Staff members are discouraged from creating personal social networking sites to which they invite students to be friends. Employees taking such action do so at their own risk.

All employees shall be subject to disciplinary action if their conduct relating to use of technology or online resources violates this policy or other applicable policy, statutory or regulatory provisions governing employee conduct. The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and confidentiality of student information. Conduct in violation of this Code, including, but not limited to, such conduct relating to the use of technology or online resources, must be reported to Education Professional Standards Board (EPSB) as required by law and may form the basis for disciplinary action up to and including termination.

COMMUNITY USE

On recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

Upon request to the Principal/designee, community members may have access to the Internet and other electronic information sources and programs available through the District’s technology system, provided they attend any required training and abide by the rules of usage established by the Superintendent/designee.

DISREGARD OF RULES

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, or other computing and telecommunications technologies.

Employees and students shall be subject to disciplinary action, up to and including termination (employees) and expulsion (students) for violating this policy and acceptable use rules and regulations established by the school or District.

RESPONSIBILITY FOR DAMAGES

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. Students or staff members who deface a District web site or otherwise make unauthorized changes to a web site shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

RESPONDING TO CONCERNS

School officials shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

AUDIT OF USE

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system.

The Superintendent/designee shall establish a process to determine whether the District’s education technology is being used for purposes prohibited by law or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors;
2. Maintaining and securing a usage log; and

3. Monitoring online activities of minors.

RETENTION OF RECORDS FOR E-RATE PARTICIPANTS

Following initial adoption, this policy and documentation of implementation shall be retained for at least ten (10) years after the last day of service in a particular funding year.

Telecommunication Devices (Policy 09.4261)

These restrictions shall not be interpreted to prohibit material protected under the state or federal constitutions where such material does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others.

2. Schools shall develop policies which govern specific times and places during the instructional day that students may use telecommunications devices. Please consult your school for those policies.
3. When students violate prohibitions of this policy, they shall be subject to disciplinary action, including losing the privilege of bringing the device onto school property and being reported to their parent/guardian. A violation also may result in a report being made to law enforcement. In addition, an administrator may confiscate the device and it may only be returned to the student's parent/guardian.
4. Students are responsible for keeping up with devices they bring to school. The District shall not be responsible for loss, theft, or destruction of devices brought onto school property.
5. Students shall comply with any additional rules developed by the school concerning appropriate use of telecommunication or other electronic devices.
6. Students shall not utilize a telecommunication or similar electronic device in a manner that would violate the District's Acceptable Use policy or procedures or its Code of Conduct.

Students shall not be permitted to use or possess any tobacco product, alternative nicotine product, or vapor product as defined in [KRS 438.305](#) in any building and on any property owned, operated, or leased by the Board. This will apply to indoor and outdoor facilities, stadium/athletic fields, inside Board-owned vehicles, on the way to and from school, and during school-sponsored trips and activities. SEARCH AND SEIZURE

Pupil’s outer clothing, pockets, or his or her personal effects (e.g., handbags, backpacks, etc.) shall be searched by the Principal only when there is a reasonable suspicion to believe the search will reveal evidence that the pupil has violated or is violating either a school rule or the law. Search of a pupil’s person shall be conducted only with the express authority and supervision of the Principal. Search of a pupil’s person shall be conducted in the presence of a certified person of the same sex as the student being searched. When a pat-down search of a pupil’s person is conducted, the certified person conducting the search shall be the same sex as the pupil; and a certified school employee of the same sex as the pupil shall be present during the search. All searches will be conducted under the supervision of the Principal.

No search of a pupil shall be conducted in the presence of other students. No strip searches (see following definition) of students shall be permitted. Strip search is defined as requiring a student to remove or rearrange clothing to reveal a part of the body that would normally be covered or to cause exposure of undergarments that were previously covered to allow for a visual inspection. The required removal of shoes, socks, or a hat, the

removal or arrangement of outerwear (such as coats or jackets) or requiring a student to roll up sleeves does not constitute a strip search.

School property, such as lockers and desks, are jointly held by the school and the pupil. School authorities have the right to conduct general inspection of all such property on a regular basis. During these inspections, items which are school property, such as overdue library books, may be collected. Students do not have a reasonable expectation of privacy in school property, such as lockers and desks. A single desk or locker may be searched if there is a reasonable suspicion that evidence of a violation of the law or a school is contained therein.

Illegal items (e.g., weapons, drugs, etc.) or other possessions reasonably determined by proper school authorities to be a threat to the pupil's safety or to others' safety and security will be seized by school officials. Items which may be used to disrupt or interfere with the educational process may be removed from the pupil's possession by a staff member. Such items may be returned to the pupil's parents by the staff member or through the Principal's office.

When reasonable suspicion exists that the contents within a student's automobile pose a threat to student health, safety or welfare and that vehicle is on school property, the student will be required to provide access to the vehicle. Students who fail to cooperate with school authorities shall be subject to disciplinary action.

DISCIPLINE AND DUE PROCESS – (Policies 9.431 and 9.434)

State and Federal guidelines are adhered to regarding discipline procedures. Records are kept regarding incidents which require disciplinary action of a more serious nature including student transfer, suspension and expulsion. Students will be afforded the right to due process whenever applicable. This means they will be given the opportunity to give their version of the incident when they are involved in any altercation.

Right to Due Process

Before being punished at the school level with suspension for violation of school regulations, a pupil shall have the right of the following due process procedures.¹

1. The pupil shall be given oral or written notice of the charge(s) against him.
2. If the pupil denies the charge(s), he shall be given an explanation of the evidence against him.
3. The pupil shall be given an opportunity to present his own version of the facts concerning the charge(s).

Students with Disabilities

In cases which involve students with disabilities, procedures mandated by federal and state law shall be followed.

Who May Suspend

In accordance with [KRS 158.150](#), the Principal or assistant Principal may suspend a pupil up to a maximum of five (5) days per incident.

The Superintendent may suspend a pupil up to a maximum of ten (10) days per incident.

Length of Suspension

A pupil may not be suspended for more than a total of ten (10) days per incident.

Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others, as determined by the Superintendent/designee.

Prior Due Process Required

A pupil shall not be suspended until due process procedures have been provided as described in [KRS 158.150](#) (09.431)¹, unless immediate suspension is essential to protect persons or property or to avoid disruption of the educational process. If the Superintendent lengthens the period of suspension imposed by the Principal, additional due process shall be provided.

Imminent Danger

In such cases, due process shall follow the suspension as soon as practicable, but no later than three (3) school days after the suspension.

Written Report Required

The Principal or assistant Principal shall report any suspension in writing¹ immediately to the Superintendent and to the parent of the pupil being suspended. The written report shall include the reason for suspension, the length of time of the suspension, and the conditions for reinstatement.

Students with Disabilities

In cases which involve students with disabilities, the procedures mandated by federal and state law for students with disabilities shall be followed.

Suspension of Exceptional Children as Defined in KRS 157.200 (KRS 158.150)

(a) Suspension for an exceptional child shall be considered a change of educational placement if:

1. The child is removed for more than ten (10) consecutive days during a school year; or
2. The child is subjected to a series of removals that constitute a pattern because the removals accumulate to more than ten (10) school days during a school year and because of other factors, such as the length of each removal, the total amount of time the child is removed, and the proximity of removals to one another.

(b) The admissions and release committee shall meet to review the placement and make a recommendation for continued placement or a change in placement and determine whether regular suspension or expulsion procedures apply. Additional evaluations shall be completed, if necessary.

(c) If the admissions and release committee determines that an exceptional child's behavior is related to his disability, the child shall not be suspended any further or expelled unless the current placement could result in injury to the child, other children, or the educational personnel, in which case an appropriate alternative placement shall be provided that will provide for the child's educational needs and will provide a safe learning and teaching environment for all. If the admissions and release committee determines that the behavior is not related to the disability, the local educational agency may pursue its regular suspension or expulsion procedure for the child, if the behavior so warrants. However educational services shall not be terminated during a period of expulsion and during a suspension after a student is suspended for more than a total of ten (10) days during a school year. A district may seek temporary injunctive relief through the courts if the parent and the other members of the admissions and release committee cannot agree upon a placement and the current placement will likely result in injury to the student or others.

Suspension of Primary School Students (KRS 158.150):

“Suspension of primary school students shall be considered only in exceptional cases where there are safety issues for the child or others.”

Make-Up Work for Periods of Suspension (Policy 09.123)

Student shall be allowed to make up assignment made before they were suspended. Assignments made during the suspension may be made up at the school's discretion.

Expulsion and the Continuation of Educational Services:

Expulsion is the long-term removal of a student from school as a disciplinary measure and requires action by the Board of Education. Kentucky statute states, “A Board of Education that has expelled a student from the student's regular school setting shall provide or assure that educational services are provided to the student in an appropriate alternative program or setting, unless the board has made a determination, on the record, supported by clear and convincing evidence, that the expelled student poses a threat to the safety of other students or school staff and cannot be placed into a state-funded agency program.” Behavior that may be determined to pose a threat shall include, but not be limited to, the physical assault, battery, or abuse of others; the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drug or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior that may endanger the safety of others.

Suspension and Expulsion as Related to the Continuation of Extracurricular School Activities:

Students suspended or expelled from school shall not be permitted to participate in any extracurricular or school sponsored activities during the period of suspension or expulsion. Students who are expelled and are being served in an alternative program due to a drug violation shall not be permitted to participate in or attend any extracurricular or school-sponsored activity. Suspensions cannot exceed 10 school days for a single incident.

GRIEVANCES (Policy 09.4281)

GENERAL

Any student who wishes to express an educational concern or grievance shall observe the following order of appeal:

1. Teacher;
2. Principal;
3. School council, where appropriate;
4. Superintendent;
5. Board.

The order of appeal shall not be construed to mean that students are not free to confer with the Superintendent or Board whenever they so wish. However, if the grievance concerns discipline of an individual student, the Board may, on a case-by-case basis, determine if it will hear the grievance based on whether the facts presented in the written grievance fall within its discretion or authority. If there is a question as to whether the grievance is within the Board's discretion or authority, the Board will consult with legal counsel.

PROCEDURES

Grievance procedures shall address, but not be limited to, the conditions for filing a grievance, time limitations for the filing and the appeal of a grievance, and a process for the orderly review and appeal of each individual grievance.

EXCEPTIONS

Harassment/Discrimination allegations shall be governed by Policy 09.42811.

Federal law requires the District to implement separate and specific processes for responding to complaints/grievances about Title I programs and to those alleging discrimination in the delivery of benefits or services in the District's school nutrition program.

Procedure 09.4281 AP.2 "Grievance Initiation Form (Students)" is available online at the district website and paper copies are available at the district Board of Education Office as well as each school center. Any student who feels s/he is experiencing retaliation due to the report of a violation should complete the form and return the completed form to the appropriate personnel.

DISTRICT OFFICE HOURS

The Menifee County Board of Education central office is currently open from 8:00AM -4:00PM. Central Office administrators and support staff can be reached at: (606) 768-8002.

ADMISSION TO SCHOOL

Residency Defined (Policy 09.12):

Residency is defined as pupils whose parent or guardian resides in the District and has custody of the student, or pupils who are legal residents of the school District, or as otherwise provided by state or federal law, shall be considered residents and entitled to the privileges of the District's schools. All other pupils shall be classified as nonresidents for school purposes. Nonresident pupils may be admitted to the District's schools in accordance with Board policy and upon approval of the Superintendent.

School Service Area:

Service areas have been established based upon the size of the facility for our two kindergarten through fifth grade school centers. In order to prevent overcrowding, parents must obtain permission from the Board of Education utilizing the district "Application for Change in School Assignment" form (School board procedure 09.11 AP.22) to send a child to a school other than the school designated to serve the family based upon their residence.

Incoming Transfer Students:

A student transfer may be placed temporarily (ten days maximum placement) without records. Within a ten (10) day period after initial enrollment, a valid birth certificate, Kentucky immunization certificate, a completed school physical form, and a complete copy of school records must be on file. Extensions may be granted by the principal if an extenuating circumstance arises (i.e. ward of the court).

Entrance Requirements (Procedure 09.121 AP.1)

- ***Proof of Age and Identity*** - A birth certificate or other reliable proof of the student's identity and age. If a birth certificate is not presented, an affidavit of the inability to produce a copy of the birth certificate must be given.

Proof of Immunization - Evidence of immunization by means of a doctor's certificate or a certificate from the Public Health Service. The immunization certificate form required by 704 KAR 4:020 shall be on file within two (2) weeks of a student's enrollment in school.

- ***Preventative Health Care and Vision Examinations*** - Within one (1) year prior to initial admission to school, each student entering kindergarten shall undergo a preventative health care examination, which shall be documented on the state-required form. A preventative health care examination may also be required for students entering pre-school.

Also upon enrollment, each student entering the first year of public school, public pre-school or Head Start must undergo a vision examination as required by applicable statute and regulation and provide the school with the required form by January 1 of the first year of enrollment. Evidence of a dental screening or examination shall be required to be submitted by January 1 of the first year that a five- and six-year-old student is enrolled in the District.

Principals are to report to the Director of Pupil Personnel the names of those children who do not present acceptable evidence of age and required immunizations and examinations. Except for vision examination forms, which are due by January 1 of the first year of enrollment, failure to provide the remaining required documentation within thirty (30) calendar days after enrollment may constitute reason for legal action.

Primary/Entrance Age

A child who becomes five (5) on or before August 1 may enter the primary school and may advance through the primary program without regard to age in accordance with KRS 158.031. A child, who becomes six (6) by August 1, shall attend public schools unless s/he qualifies for an exemption as provided by KRS 159.030. The District shall establish guidelines to determine a student's level of academic and social skills when that student is being considered for advancement through the primary program. A student, who is at least five (5) years of age, but less than six (6) years of age on or before August 1, may be enrolled in the second level of the primary program in keeping with the process set out in Kentucky Administrative Regulation. Parents/guardians may petition the Board to allow their child to enter school earlier than permitted under statutory age requirements. On receipt of a petition, the District shall conduct an evaluation process to help determine a student's readiness to engage in and benefit from early entry to school.

The form for consent is in the Appendix of this handbook and must be returned to your child's school where it shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

EXTRA-CURRICULAR ACTIVITIES

The Menifee County School Board of Education fully supports student organizations, clubs, and social, physical, and recreational activities. Through participation in co-curricular and extracurricular activities, students receive an opportunity for growth in areas beyond the scope of the academic classroom. In schools operating under School Based Decision Making (SBDM), the council shall determine selection of extracurricular activities, as well as academic qualifications, attendance requirements, evaluation procedures and supervision for these programs. The individual school's handbook supplement will describe extra-curricular activities available at your child's school.

NON-CURRICULUM RELATED STUDENT GROUPS

Non-curriculum related student groups may be provided meeting space on application to and approval by the Principal. Space shall only be provided during non-instructional time either before the beginning or after the conclusion of the school day.

All meetings of non-curriculum related student groups shall be voluntary. No meeting shall be sponsored by the District or any of its employees. All such meetings shall be student initiated, directed, conducted, and controlled. Non-school personnel may not regularly attend such meetings nor attempt to direct, control, or conduct the same. Agents or employees of the District may attend religion related meetings only in a non-participatory capacity.

Permission to use school facilities may be denied where reasonable cause exists to believe the meeting will materially and substantially interfere with the orderly conduct of the educational activities of the school or pose a danger to the health, safety, or welfare of the students in attendance or to school property.

Students are under the full jurisdiction of school officials at evening events held either on campus or at any other site at which a Menifee County School is a participant and are be held accountable for any type of misconduct during a school event or activity regardless of the site where the infraction occurs. All students, grades 7-12, who plan to participate in extra-curricular activities must, along with their parent/guardian, sign the "Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing" form before they can become a member of an extracurricular activity. These students must also attend at least one educational seminar on alcohol and drug abuse each semester.

School Athletic Programs and Eligibility (Policies 09.31, 09.313)

All interscholastic athletic and sport activity competitions shall be in compliance with the constitution, bylaws, and competition rules of the Kentucky High School Athletic Association (KHSAA). Menifee County High School and the Superintendent of Menifee County Schools annually submit a written certification of compliance with 20 USC Section 1681 (Title IX). The policy adopted by the school council relating to evaluation of the athletic program shall address program equity for both male and female athletics and sport activities.

Determination of athletic eligibility shall be made in compliance with applicable administrative regulations and Kentucky High School Athletic Association requirements. Based on KHSAA criteria, the school Principal shall be responsible for determining the eligibility of students participating in the athletic program. Additional information pertaining to school sports and student participation is included in the handbook supplement for each respective school.

All students, grades 7-12, who plan to participate in varsity and sub-varsity sports must, along with their parent/guardian, sign the "Student and Parent/Guardian Consent to Perform Urinalysis for Drug Testing" form before they can participate in athletic activities . These students must also attend at least one educational seminar on alcohol and drug abuse each semester.

Student Organizations and Clubs

School groups' affiliation with state and national organizations must be approved by the Menifee County Board of Education. All school-sponsored student organizations shall be under the direction of a faculty advisor. Organizations such as honor club, athletic clubs or other groups where membership is determined by scholarship, special curricular-related interests, or other such qualifications may restrict membership to pupils who qualify according to the bylaws of the organization if approved by the Principal.

Participation in Extracurricular Activity Denied to Students Disciplined for Drug/Alcohol Offenses and/or Students who are Suspended or Expelled-Students Grades 7-12 who have a positive drug screening

Students who are suspended or expelled from a Menifee County School District school shall not participate in any extracurricular activity during the time of suspension or expulsion. Students who are placed in an alternative school program due to a violation of the district Drug and Alcohol Policy (09.423) are not permitted to participate in any extracurricular activity at their regular school site (see policy on pages 16-20).

STUDENT ASSESSMENT

Statewide Assessment:

Kentucky's accountability system is aligned to Every Student Succeeds Act (ESSA). Kentucky Performance Rating for Educational Progress (K-PREP) tests are given statewide to measure how well students are learning the required material. Assessments are given to students beginning in 3rd grade. K-PREP includes tests in reading, math, science, social studies and writing, with some content areas being assessed yearly and others only periodically throughout a child's education. High school students are assessed primarily through the ACT. In addition to classroom teacher assessments, our students in grades K-5 are assessed using iReady, CERT for grades 6-12, and Case 21 assessment in grades K-12. This data is available to parents/guardians. You can find more information about many of the assessments by visiting the Kentucky Department of Education Web site at www.education.ky.gov.

6. A pupil who is enrolled and in regular attendance in a state supported program for exceptional children.

Exceptions to Presence at School

Students must be physically present in school to be counted in attendance, except under the following conditions:

1. Students shall be counted in attendance when they are receiving home/hospital, institutional, or court-ordered instruction in another setting.
2. Participation of a pupil in 4-H activities that are regularly scheduled and under the supervision of a county extension agent or the designated 4-H club leader shall be considered school attendance.
3. Students may participate in co-curricular activities and be counted as being in attendance during the instructional school day, provided the Principal/designee has given prior approval to the scheduling of the activities. Approval shall be granted only when co-curricular activities and trips are instructional in nature, directly related to the instructional program, and scheduled to minimize absences from classroom instruction.
4. Students participating in an off-site virtual high school class or block may be counted in attendance in accordance with requirements set out in Kentucky Administration Regulation.
5. Students having an individual education plan (IEP) that requires less than full-time instructional services shall not be required to be present for a full school day.

Students shall be expected to complete any assignments missed on the date or dates of the competition.

ATTENDANCE AND TRUANCY – (Policy 09.123)

Attendance Philosophy

The Menifee County School District administration and faculty places the upmost importance upon regular student attendance, *beginning with the kindergarten program* and extending through the student's graduation from high school. Each time a student misses school, he/she loses knowledge that can never again be fully obtained by any other means.

Kentucky law (KRS 159.990) states that attendance in a public school is compulsory for students between the ages of six (6) and eighteen (18) unless he/she has graduated from high school, is enrolled in regular attendance in a private, parochial, or church regular day school or has a physical or mental condition which prevents or renders inadvisable attendance of school or application to study. Students participating in a school or state approved field trip shall be considered present.

Truancy (KRS 159.150):

Pupils are required to report to the school which they attend *regularly and punctually*. Any student who has attained the age of six (6), but has not reached his/her eighteenth (18th) birthday, who has been absent from school without valid excuse for three (3) days or more, or tardy without valid excuse on three (3) days or more, is a truant. Any student enrolled in a public school who has attained the age of eighteen (18) years, but has not reached his/her twenty-first (21st) birthday, who has been absent from school without valid excuse for three (3) or more days, and/or tardy without valid excuse three (3) or more days is a **truant**. Any student who has been reported as a truant two (2) or more times is a **habitual truant**. For the purpose of establishing a student's status as a truant, a student's attendance record is cumulative for an entire school year. When students transfer from one Kentucky district to another, attendance information from the previous district shall become part of their official attendance record for that school year. Truants shall be reported to the Director of Pupil Personnel who will take appropriate actions which shall include referral to the judicial system.

Excused Absences

An excused absence or tardiness is one for which work may be made up, such as:

1. Illness of the pupil.
 - a) A physician's statement will be required after five (5) absences.
 - b) A pupil with a chronic illness which may cause him/her to miss school may present a doctor's statement giving the nature of the illness and indicating that the pupil may need to miss school due to the illness for a maximum of ten (10) doctor excused days per school year. Should a student require more than ten (10) doctor excused days, the parent/guardian may apply for special consideration by completing the Chronic Illness/Ongoing Treatment Verification Form and submitting it to the child's school.
 - c) Pupils who are unable to follow the schedule or to comply with school rules because of illness or disability should contact the Principal or counselor.
2. Death in the family. Absences for this reason should be limited to three (3) days unless additional days are approved by the Principal.
3. Medical and dental appointments verified by an appointment card or a statement from the doctor or dentist that the student has received treatment.
4. School-sponsored trips. 4-H trips will be excused in accordance with [KRS 159.035](#).
5. Religious holidays and practices.
6. Severe illness of a member of the pupil's household.
7. Drivers and permit tests. Pupils will be excused for only that part of the day during which they are taking the tests. They should present a note from the circuit clerk's office.
8. Court appearances verified by a note from the circuit clerk's office stating that the pupil was required to appear in court or a copy of the summons.
9. Documented military leave.
10. One (1) day prior to departure of parent/guardian called to active military duty.
11. One (1) day upon the return of parent/guardian from active military duty.
12. Visitation for up to ten (10) days with the student's parent, de facto custodian, or person with legal custody who, while on active military duty stationed outside of the country, is granted rest and recuperation leave.
13. Other valid reasons or special situations approved by the Principal, including trips qualifying as educational enhancement opportunities.

Students shall be granted an excused absence for up to ten (10) school days to pursue an educational enhancement opportunity determined by the Principal to be of significant educational value. This opportunity may include, but not be limited to, participation in an educational foreign exchange program or an intensive instructional, experiential, or performance program in one (1) of the core curriculum subjects of English, science, mathematics, social studies, foreign language, and the arts.

Unless the Principal determines that extenuating circumstances exist, requests for date(s) falling within State or District testing periods shall not be granted.

The Principal's determination may be appealed to the Superintendent/designee whose decision may then be appealed to the Board under its grievance policy and procedures.

If possible, requests for excuses under this category should be made prior to the date of absence. Students receiving an excused absence under this section shall have the opportunity to make up school work missed and shall not have their class grades adversely affected for lack of class attendance or class participation due to the excused absence.

Verification of Absences

A student can use a **maximum of five (5) hand written notes**, for a total of five (5) days during a school year. These notes need to identify the date(s) and reason the student was absent or tardy and be signed by the guardian. Parent/guardian notes and doctor excuses **must be turned in within five (5) days after returning to school from an absence**. All days missed will be deemed unexcused if student does not turn in an approved excuse within five (5) days of returning to school, even if they have a doctor's excuse.

CORRECTIVE ACTION PLAN

Students who have permission to drive to school, who participate in extracurricular activities (sports and clubs), and who attend school sponsored field trips must abide by the following attendance policy in order to participate and retain their privileges for these activities. If student accumulates:

- Three (3) unexcused absences in one nine (9) week period=loss of privileges for the next nine (9) week period;
- Four (4) unexcused tardies in one nine (9) week period=loss of privileges for the next nine (9) week period;
- The accumulation of nine (9) unexcused absences for nine (9) tardies, or a combination of the two, will result in loss of privileges for the remainder of the school year.

Other Important Attendance Notes:

- In addition, 702 KAR 7:125 states that students who participate in an off-site high school class or block may be counted in attendance.
- Students participating as a part of a school sponsored interscholastic athletic team who compete in a regional or state tournament sanctioned by the Kentucky Board of Education or KHSAA that occurs on a regularly scheduled school day shall be counted and recorded present at school on the date or dates of the completion, for a maximum of two (2) days per student per school year. Students shall be expected to complete any assignments missed on the date or dates of the competition.

Home-Hospital Instruction ("Homebound")

The Menifee County Board of Education operates a program for home instruction and /or hospital instruction for students of school age. Students are considered for home/hospital instruction when there is an expectation of an inability to attend regular school for more than five (5) consecutive school days due to such conditions as surgery, illness, and medical complications to pregnancy, post-partum recovery from childbirth, or fractures.

Home instruction shall not be used as a substitute for a more appropriate educational placement for a student. To apply for home/hospital instruction, contact either the school where your child is enrolled or the Director of Pupil Personnel at the Menifee County Board of Education and request an application. School officials will describe the procedure utilized in determining home/hospital eligibility.

DRIVER'S LICENSE REVOCATION-(KRS 159.051)

Students who are sixteen (16) or seventeen (17) years old who become academically deficient or deficient in attendance shall be reported to the Transportation Cabinet for driver's license, permit or driving privilege revocation. Any/ALL excuses not submitted to the school within five (5) school days upon return to school shall be deemed unexcused as related to the No Pass/No Drive Law. The high school principal and/or designee shall be responsible for reporting those students who are in violation of the No Pass/No Drive statute on the online reporting database.

ACADEMIC AND ATTENDANCE DEFICIENCIES

Academic and attendance deficiencies for student's age sixteen (16) or seventeen (17) enrolled in regular, alternative, part-time, and special education programs shall be defined as follows:

1. They shall be deemed academically deficient if they have not received passing grades in at least four (4) courses, or the equivalent of four (4) courses, taken in the preceding semester.
2. They shall be deemed deficient in attendance when they drop out of school or accumulate nine (9) unexcused absences for the preceding semester. Suspensions shall be considered unexcused absences.

REINSTATEMENT OF DRIVING PRIVILEGE

Students whose driving permits are revoked, but later meet the statutory standards for reinstatement, must then apply to the Director of Pupil Personnel to have their standing confirmed. The District shall make the required report to the appropriate agency.

SCHOOL ATTENDANCE AREAS

Assigned Zones

All pupils shall be assigned by geographic attendance zones and will attend the school designated to serve their area of residence. Specific areas served by each attendance zone will be marked on a map in the central administration office. The Board may revise attendance zones from time to time to attain maximum utilization of school facilities.¹

If Families Move

If a family moves from one attendance zone to another within the school system, the pupil may be permitted to finish the school year in the school in which s/he was last enrolled (at no cost or service by the Board). The pupil must enroll the following year in the school in the attendance zone of his/her legal residence.

Exceptions to Assignment

Exceptions (specified below) to school assignments may be approved by the Board at the written request of a parent or guardian when the exception will not result in overcrowding of a grade or school and will not become an additional cost to the Board:

1. Parent or guardian is employed in the school the student will be attending;
2. Parent or guardian may request a change of attendance area due to the need for before or after school child-care;
3. Other extenuating or special circumstances.

Any request for change in school assignment must be based upon physical, psychological, or educational reasons. Family hardship may also be considered in changing school assignment.

Requests for Transfer

Requests for transfer to another District school must be submitted annually by May 15 to the Director of Pupil Personnel. Forms may be obtained at the Central Office. Requests made after the May 15 deadline will be considered.

Changes in school assignment will be subject to availability of space. Consideration will be given on a "first-come" basis. However, priority will be given to those students who were granted a change in school assignment for the requested school the previous year and to children of District employees.

If at any time enrollment of a school (grade) exceeds state cap sizes, students may be required to return to the school in their area of residence. Selection of students will be based on the date the original request was received.

Once a change in school assignment has been granted, requests to return to the school in the area of residence must be submitted to the Director of Pupil Personnel and may be granted subject to the availability of space.

In compliance with and as set forth by the No Child Left Behind act, the District shall allow students to transfer to another District school if:

1. Another school option exists;
2. The assigned school is identified for school improvement under federal guidelines (priority for transfer will be given to the lowest achieving children from low-income families);*
3. The assigned school is designated by the state as being "persistently dangerous"; or
4. The student becomes a victim of a violent criminal offense, as determined by state law, while attending school.²

*Because the Kentucky request to the U. S. Dept. of Education for flexibility was granted, reason #2 above is waived through the 2018-2019 school year.

Transportation

Parents will be responsible for providing transportation for students attending schools outside their attendance area.

WITHDRAWALS FROM SCHOOL

Before a student may withdraw from school after the student's eighteenth (18) birthday, under KRS 159.010, the student must confer with the Principal/designee.

SCHOOL BOARD MEETINGS

School Board meetings for the upcoming calendar year are scheduled at the January board meeting. These are posted on the district web site and many of these meetings are held at the school site and feature student showcasing. To view the calendar of school board meetings go to: www.menifee.ky.schools.us and choose "Board of Education".

POLICE OFFICERS IN THE SCHOOLS

School officials shall cooperate with law enforcement agencies in cases involving students (i.e. serving of subpoenas, juvenile petitions or warrants, or taking students into custody).

Crimes off School Property

When police officers ask to question or remove a student from the school whom they suspect of committing a crime off school property:

- Parents/guardians shall be notified by school officials as soon as possible.
- The student shall be informed by the police of his/her legal rights.
- Parental notification/permission shall not be required if the student is an alleged victim of abuse by the parents.
- The Principal or his/her designee shall be present during interviews or investigations conducted by law enforcement officials.

Crimes on School Property

Except in cases of emergencies involving threats to health and safety as determined by the Superintendent, when the District calls law enforcement officials to question students concerning crimes committed on school property, the Principal shall make an effort to notify their parent(s). During investigation procedures of students by police, the Principal or designee shall be present.

TRAINED DOGS

The Board of Education has authorized **the use of a trained dog by designated members of any federal, state, or local law enforcement upon the request of the Superintendent, Safety Director and/or Principals.** Lockers, gym bags, cars, personal property and persons are subject to search if reasonable suspicion exists that contraband (a prohibited item) is on school property in violation of the law.

1. **The Principal or the Principal's designee shall be present.**
2. **Searches involving dogs shall be conducted only when students are in classrooms or other designated safe area; no student shall be in the vicinity of the site being searched.**
3. **All dogs shall be on a leash and will not be allowed to come in close proximity to any student.**

ALTERNATIVE EDUCATIONAL PROGRAM

Alternative programs exist to meet the needs of students that cannot be addressed in a traditional classroom setting but through the assignment of students to alternative programs that are designed to remediate academic performance, improve behavior, or provide an enhanced learning experience.

The purpose of the Board's Alternative Education Program is to provide:

- Learning activities that support innovative pathways and are aligned to college and career outcomes for all students.
- A curriculum that is aligned with the Kentucky Core Academic Standards and the learning goals in each student's Individual Learning Plan (ILP).
- Successful student transition to the regular school assignment, when possible, or to post-secondary status.
- A meaningful alternative to suspension and/or expulsion of a student.

Alternative education placements may be utilized for students in all grade levels. Placement may be voluntary or involuntary, and the program is offered on the Menifee K-12 school campus. Students in the alternative program are governed by the Principal of the grade level of the student. Refer to policy/procedure 09.4341/09.4341AP.21 for placement criteria.

SCHOOL TRANSPORTATION

Pupils shall be eligible to be transported to and from school if they reside more than one mile, by the nearest traveled road or street, from the school to which they are assigned. If traffic or other safety conditions make walking to school extremely dangerous, pupils shall be eligible for transportation without regard to the distance to their school.

Students are required to walk to certain centralized bus stops on public roads where traffic hazards would not make it feasible to stop buses in front of their homes. Students who live close together shall be required to assemble themselves at a certain point to be picked up by the bus.

Persons Not Eligible to Ride District Transportation

Persons not of school age, employees of the Board, parents of students, and persons not associated with the schools shall not be permitted to ride school buses during the scheduled transporting of students without written authorization of the Superintendent or designee.

CHILD ABUSE AND NEGLECT REPORTING REQUIREMENT

Any teacher, school administrator, or other school personnel who knows or has reasonable cause to believe that a child under age eighteen (18) is dependent, abused or neglected shall immediately make a report to a local law enforcement agency or the Kentucky State Police, the Cabinet for Families and Children or its designated representative, the Commonwealth's Attorney or the County Attorney in accordance with [KRS 620.030](#). This may occur by calling Centralized Intake at 1-888-351-8901. Non-emergency reports of child abuse/neglect may be made online at <https://prd.chfs.ky.gov/ReportAbuse/home.aspx>.

Reporting suspected neglect or abuse to an employee's supervisor or another employee does NOT relieve the employee of the legal obligation to make a report to these appropriate authorities. The individual who knows or has reasonable cause to believe that a child under eighteen (18) is dependent, abused or neglected **has the legal responsibility to report it immediately**. Usually, this is accomplished by contacting Centralized Intake and providing the necessary information that may be requested about the suspected abuse. If however, there is a possibility of eminent danger to the child, a staff member should contact the State Police or 911 Dispatch. After making a report of suspected abuse or neglect to either Centralized Intake or the local law enforcement agency, **the employee shall notify the Principal, who then shall also promptly make a report to the proper authorities for investigation**. If the Principal is suspected of child abuse, the employee shall notify the Superintendent/designee who shall also promptly report.

The individual making an oral report should make a personal record of the report, including the date and time of report and name of the individual to whom the report was made. In addition, the individual shall make a written report to the Superintendent as required by administrative procedure.

CONTAGIOUS DISEASES

A parent, legal guardian, or other person or agency responsible for a student shall notify the student's Principal if the student has any medical condition which is defined by the Cabinet for Human Resources as threatening the safety of the student or others in the school. The notification shall be given as soon as the medical condition becomes known and upon each subsequent enrollment by the student in any Menifee County School. The Principal or designee shall notify the student's teachers in writing of the nature of the medical condition. If any student is known or suspected to have or be infected with a communicable disease or condition for which a reasonable probability for transmission exists in a school setting, the Superintendent may order the student excluded from the school. In the case of lice or bedbugs, the district has developed "control procedures" and these will be followed for each individual case. For information on this, please contact the District Health Coordinator at (606)768-8002.

In the event that school must be dismissed after students have arrived for the day due to hazardous weather conditions, the district will announce the early dismissal using the above procedures as well. An "I" (Incomplete) grade must be changed to a passing or failing grade within 2 weeks.

Grade Point Average

A student's grade point average is calculated upon completion of a course and receipt of the final grade for the course. For each A that a student receives, it would be four (4) points, a B would earn three (3) points, a C would receive (two) 2 points, and a D would earn one (1) point. The points are then multiplied by the amount of credit that each class is worth, usually one; however, a few classes are only worth one-half credit. Finally, the total is divided by the number of classes that the student has taken.

NOTIFICATION OF FERPA RIGHTS

The Menifee County School District observes strict federal and state regulations for safeguarding the confidentiality of student educational records. The district person responsible for confidentiality is the Director of Pupil Personnel.

The Family Educational Rights and Privacy Act (FERPA) affords parents and “eligible students” (students over 18 years of age or students who are attending a postsecondary institution) certain rights with respect to the student’s education records. They are:

1. *The right to inspect and review the student’s education records within forty-five (45) days of the day the District receives a request for access.*

Parents or eligible students should submit to the school Principal/designee a written request that identifies the record(s) they wish to inspect. The Principal will make arrangements for access and notify the parent or eligible student of the time and place where the record(s) may be inspected.

2. *The right to inspect and review logs documenting disclosures of the student’s education records.*

Except for disclosure to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosure to the parent or eligible student, FERPA regulations require the District to record the disclosure.

3. *The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or in violation of the student’s privacy or other rights.*

Parents or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of privacy or other rights. They should write the school Principal, clearly identify the part of the record they want changed, and specify why it is inaccurate, misleading, or in violation of their privacy or other rights.

If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise him/her of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

4. *The right to provide written consent prior to disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.*

Exceptions that permit disclosure without consent include:

- a. Disclosure to school officials with legitimate educational interests. A “school official” is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a volunteer, or an outside person or company with whom the District has contracted to perform a special task (such as, but not limited to, an attorney, auditor, medical consultant, therapist, testing company, etc.); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility to the District.
- b. Upon request, disclosure of education records without parent/eligible student notice or consent to officials of another school district or post-secondary institution in which a student seeks or intends to enroll or is already enrolled or to other entities authorized by law so long as the disclosure is for purposes related to the student’s enrollment or transfer.
- c. Disclosure of information to those whose knowledge of such information is necessary to respond to an actual, impending, or imminent articulable and significant health/safety threat.
- d. Disclosure to state and local educational authorities and accrediting organizations, subject to requirements of FERPA regulations.

5. *The right to notify the District in writing to withhold information the Board has designated as directory information as listed in the annual directory information notice the District provides to parents/eligible students.*

To exercise this right, parents/eligible students shall notify the District by the deadline designated by the District.

6. *The right to prohibit the disclosure of personally identifiable information concerning the student to recruiting representatives of the U. S. Armed Forces and its service academies, the Kentucky Air National Guard, and the Kentucky Army National Guard.*

Unless the parent or secondary school student requests in writing that the District not release information, the student’s name, address, and telephone number (if listed) shall be released to Armed Forces recruiters upon their request.

7. *The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.* The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605.

THE PROTECTION OF PUPIL RIGHTS AMENDMENT

TITLE I PROGRAM

Title I programs offer financial assistance to school districts for serving high poverty schools and students who are educationally deprived. The intent of the program is to assist all students in achieving the same expected educational standards. Eligible schools identify specific needs and develop a program which is coordinated with the regular instructional program.

The Title I program in the Menifee County School District currently serves six school-wide programs and one private school. The grade range is K-8 and most of the Title I money is used to hire instructional personnel and buy instructional materials. The remaining funds are used for administrative personnel, parent liaisons, aiding the homeless program, and to possibly fund summer school for K-8. Needs addressed by Title I are math, reading, science, social studies, writing, arts and humanities, and parent involvement.

TITLE I PARENT INVOLVEMENT POLICY

This policy and the plan to implement it have been developed jointly and in agreement with, and will be distributed to, parents of students participating in the Title I program. Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language that parents can understand. This policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

School Policy

The school's policy shall include a school-parent-student compact developed in keeping with legal requirements.
